EXPERIENCE

2011 - 2019   **Henotem SPRL**

Henotem distributes natural health supplements over the internet. I have built the company from the ground up, acquiring the following skills along the way: resilience, problem solving, objective reasoning, time management, digital marketing.

EDUCATION

2009   **Master in Strategic Project Management**

Heriot-Watt University (Edinburgh, UK), Politecnico di Milano (Milan, Italy), Umea University (Umea, Sweden)

2007   **Bachelor degree in Civil Engineering**

Catholic University of Louvain

CONTINUING EDUCATION

2020   **Technofutur TIC - .Net Developer for Enterprises**

I am currently following a 4 month, full time training to become a .Net Developer. It includes the following topics: C#, SQL, ADO, LINQ, WPF, ASP, Signal R, HTML, CSS, Javascript, Angular.

2019   **AWS Certified Solution Architect – Associate**

I have passed the AWS Certified Solution Architect - Associate exam which test the ability to design resilient, performant, secure and cost-optimized architectures using the AWS environment.

2019   **Edx.org – CS50's introduction to Computer Science from Harvard University**

I have successfully completed the course, which includes nine problem sets and a final project (available for download below).
